JLTASA Professional Learning Session Term 2 2021

This year we will be running a PL session in Term 2 and then a Conference in Term 3, both online

Saturday 5 June

9:30am – 11:30am; to be held via Zoom

← Free but only open to members

“Keeping it Real”

Engaging students in a time when excursions, incursions and overseas travel may not be possible is yet another challenge that teachers face. At this time (and in fact at all times) it is important that students are using, not just learning, Japanese. This session will focus on activities and strategies for the use of Japanese in 'real time' at all levels, so that students feel connected to their learning and the relevance and challenge of classroom activities. The activities and strategies shared will show how students can use Japanese in the classroom to communicate with one another in 'natural' rather than manufactured settings.

Presenter: Anne de Kretser

Anne de Kretser is the Director of the Monash Japanese Language Education Centre. The MJLEC focuses on supporting and developing Japanese language education in Australia and supports teachers through professional learning seminars, developing resources, research and individual and school-based advice and support. Anne is a qualified teacher of Japanese now specialising in teacher education, curriculum development and advocacy.
